

WITLOFT®

CATALOGUE

THE STORY

In a small garden shed in the heart of Amsterdam, the first WITLOFT apron was brought to life in 2014. In a search for suitable, protective clothing for craft hobbies, we worked for weeks on end to find the perfect leather apron. This was completely handmade, and the first large orders were received quickly. Since then, WITLOFT has developed into a brand with a classic collection of not only aprons, but also beautiful knife rolls and other leather accessories.

In recent years we have travelled and conquered the world with our unique collection of leather products. We were at the biggest fairs and festivals; we were seen in various TV shows, and we met the best and renowned chefs all over the world. You might also know our products from shops such as Harrods or Bijenkorf. Despite our tremendous growth over the years, one thing remains central: our passion for a beautiful traditional product.

Team Witloft

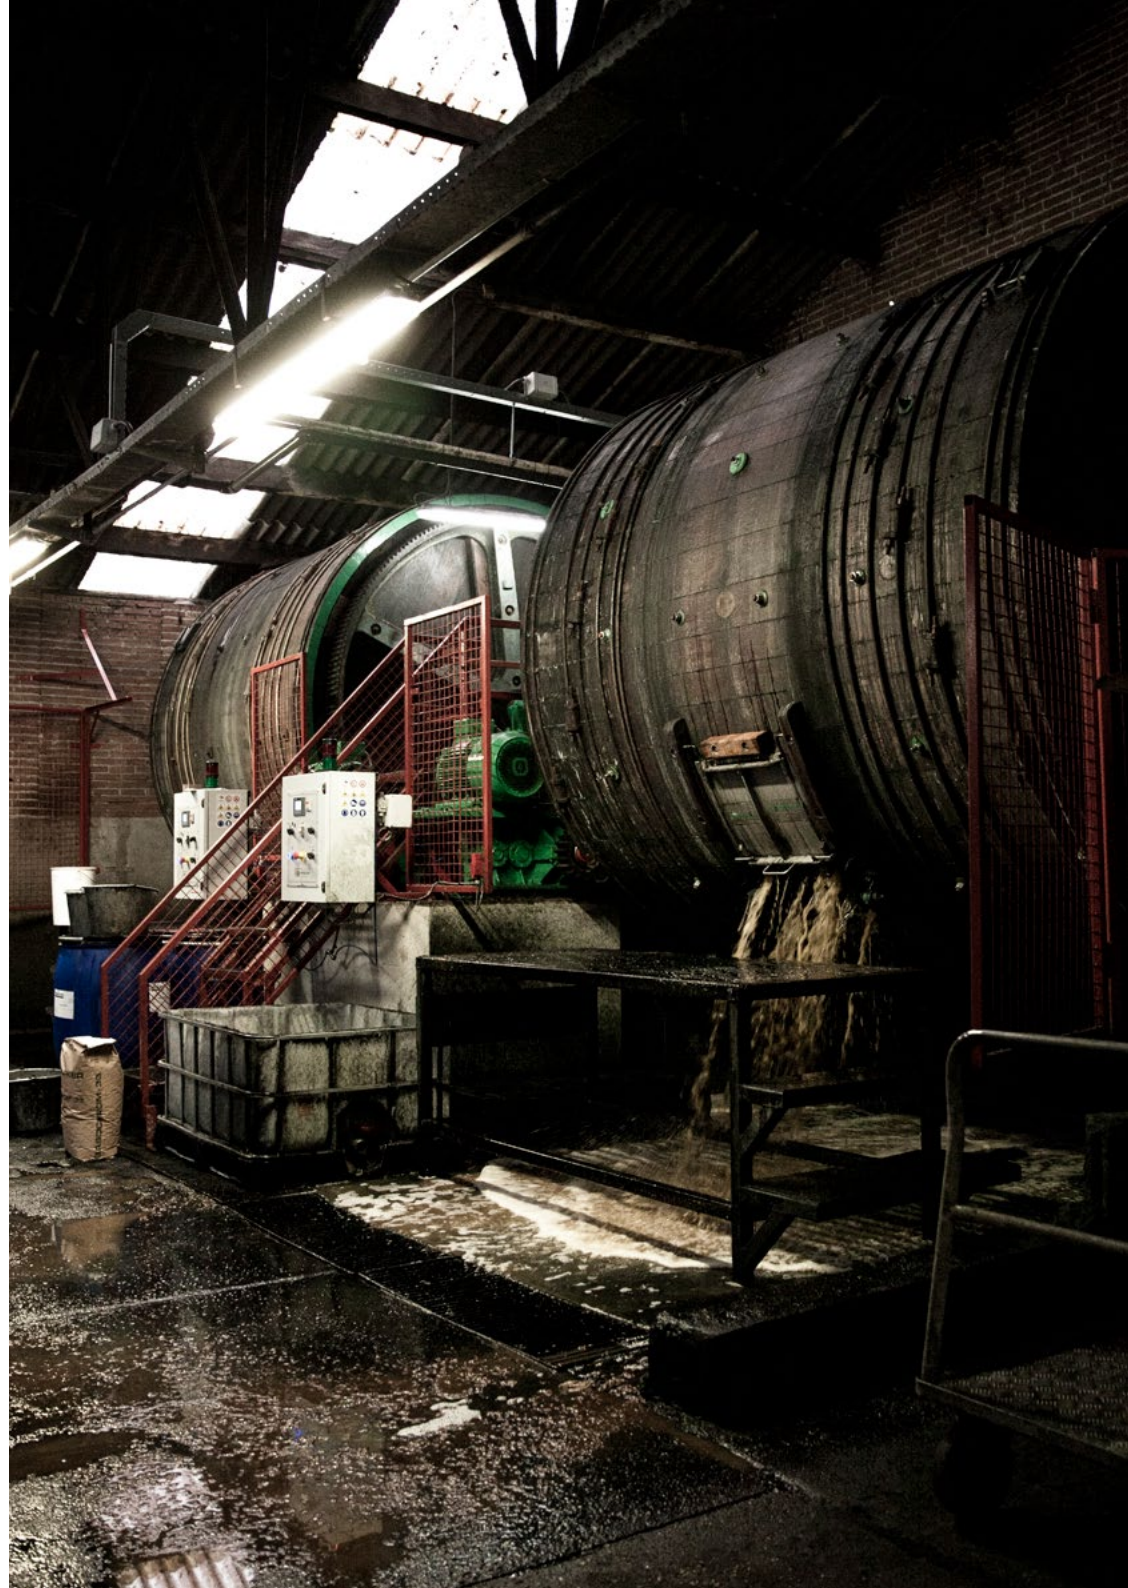

DUTCH CRAFTSMANSHIP

WITLOFT stands for traditional craftsmanship. Whether you are the king of the grill, a talented home cook, a professional barista or just like to get your hands dirty, the WITLOFT items are perfect for anyone with a passion for handmade crafts. If you like leather, recycled denim or organic cotton.

THE COLLECTION

WITLOFT has introduced several collections over the years. From the classic leather collection to the recycled denim or organic cotton collection. Of course, the most famous collection remains the leather WITLOFT collection, made of high-quality tanned cowhide. The aprons are handmade with great care, which makes each product unique. The leather is a natural product which will only become more beautiful with time through proper use and life. The recycled denim and cotton collections last a lifetime as well, but are slightly more flexible and suited for the washing machine.

UNIQUE CHARACTERISTICS

LEATHER

WITLOFT has developed a unique coating that is incorporated in all aprons in the collection. This special coating protects the leather against dirt, stains and major scratches. You can easily wipe the stains off the apron with a wet cloth. The coating ensures that the leather is a bit stiff in the beginning, but with use this will quickly relax. WITLOFT aprons are made for a lifelong use, the more you use it, the more beautiful the leather becomes. This way your WITLOFT apron will have a unique look.

A photograph of four leather aprons hanging vertically in a rustic, dark wooden structure. The aprons are made of smooth leather and come in four colors: dark green, dark brown, reddish-brown, and black. Each apron has a small, circular, reddish-brown leather patch on the upper left chest area. The aprons are suspended by their neck straps from horizontal wooden beams. The background consists of vertical and horizontal wooden planks, creating a textured, aged appearance. The lighting is dramatic, with strong highlights and deep shadows.

APRON COLLECTION

CLASSIC LEATHER COLLECTION

GREEN/COGNAC
REGULAR / UNISEX
SIZE 60W x 85H

Art. WL-ARU-21
EAN 8720254443157

HOW TO

Clean

YOUR BEAUTIFUL WITLOFT PRODUCT

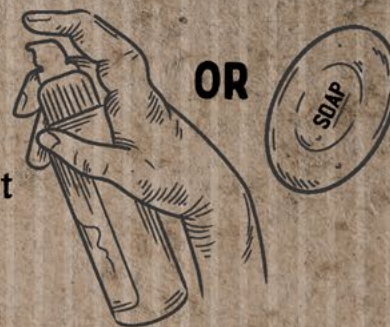

www.witloft.com

Easy to clean:

1.

Use (leather) soap cleaning or green soap on areas that require cleaning.

2.

Use a cloth to clean the smooth side of the leather. Use a brush for the non coated areas and gently rub into the leather in a circular motion and wipe off with a clean towel.

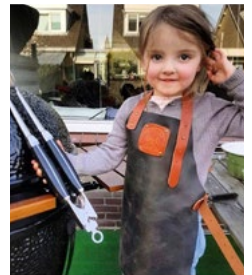

3.

Use wax (or leather wax) for cleaning the smooth leather (and the straps) to prevent drying out. It keeps the leather soft.

4. Allow to dry
